

# QMT-1 100D Manual Taping Machine

# Flexible solution for taping your parts

## Product Details

Manual Taping System featuring both heat and PSA sealing. Designed for high mix / low volume applications.

The QMT-1100 D gives the operator the capability to seal with heat or pressure (PSA).

Generous workspaces with smooth, stainless steel component trays accent the operator friendly controls. Changeover from one tape size to another is quick and easy.

The final product reeling is smooth to maximize the operation.
