You are looking for solutions for automatic feeding, for example in a special machine? Then you are right with us!

Tube feeders, label feeders, tape feeders, radial and axial feeders, surftape feeders, tray handlers – with us you will find whatever suits your application.

Whether it's electronic or mechanical components, labels, special parts such as sensors, membranes, switches, plugs or relays – let's talk about it.

Visit us at **MOTEK in Stuttgart from 04 to 07 October** and let's find out together how we can support you. Feel free to bring along samples of your components or die cut parts.

Further highlights at our trade fair stand:

- **New:** The Tape&Reel packaging machine for parts or mechanical components - as a standalone or for integration into a special machine
- Our Slimline and Mediumline Label Feeders "Made in Germany" – only 30mm or 46mm wide – for the automatic feeding of your labels, die cut parts or functional parts, starting at 2x2mm
- Labels for the high-temperature process, also ESD-compatible
- Marking solutions, all from one source: label cell, laser cell, label feeder, label printer, labels ...

You still need a ticket? No problem, just write to us briefly at info@pbtecsolutions.de – we will send you a voucher.

We are looking forward to your visit!

Hall 5, booth 5313
