New with us at productronica: Packaging solutions for all cases

You receive components in bulk, trays or tubes? You can't process them that way?

Manual and automatic taping systems from our partner rossmann automation are the solution!

Visit us at productronica in Munich from November 14 to 17, 2023, and see the manual system BGM-lite in action.

Further highlights at our booth:

- Our brand-new label cell BCL 650, compact and cost-effective – even for smaller budgets
- Our proven Slimline and Mediumline label feeders, also for special applications such as die cut parts, functional parts, membranes, etc. – already from 2x2mm
- Labels for high-temperature processes or masking parts, pre-cut in your requested dimensions
- GBR1200 inline depaneling system from Getech – the latest development for your production
- FlashRunner 2.0 and the new FlashRunner High Speed – parallel in-system programming of up to 32 different components in high speed
- Alltemated Place-N-Bond Underfilm – the perfect alternative to underfill
- Uisys HiCam – the inline reflow video camera – film what happens in your oven
- Residue-free cleaning of bare boards with the compact Tek-BC-10 inline system from TEKNEK
- Crossover Die Attach system 6200 for starters from MAT
- Solutions from Cherusal for optical and thermal bonding

We are looking forward to seeing you!

You find us in hall A2, booth 557.
